May 11, 2026

Abhishek Kininge

has successfully completed the online Specialization

Generative AI for Business Analysts

This certificate earner has demonstrated expertise in applying generative AI across key business analysis activities, including using AI for requirements gathering, data analysis, process modeling, and stakeholder communication. They can craft effective prompts, integrate AI tools with common business analysis platforms, and use AI to improve the quality, efficiency, and strategic impact of their work. The certificate earner can implement AI solutions, apply best practices for responsibly using generative AI with business analysis tools and methodologies, and adapt to evolving technologies in a dynamic business environment.
